CRAZY HEAD

OXIDIZED

THE CHARM OF TIME

Time flows leaving a vintage mark to the finish keeping the design always innovative. The continuous research and development leads MYYOUR to discover new horizons. The different concept becomes different finishing: Myyour presents the "oxidized" in the copper and rust colors. The careful manufacturing, which puts in symbiosis two materials clearly poles apart, involves the use of iron particles as a coating, whose oxidation process is activated by specific products and stopped by a special transparent varnish which allows the outdoor use.
